

NH-ARES
Section Traffic & Coordination Net
Training Session NCS Script

Preamble

"This is net control, <FCC call sign> calling the New Hampshire ARES Section Traffic and Coordination Net weekly training session." (Repeat 3 times)

"This is a directed net for training local net liaison and net control stations and for improving the overall performance of the net. Under emergency conditions, this net is used to pass formal and tactical messages between nets, and to coordinate NH-ARES operations."

"Please state your FCC call, ARES group or tactical call, and traffic status when checking in. All stations are asked to log each station checking into the net."

"Any station with emergency traffic, please check in now."
(Acknowledge all stations heard)
"Any relays?"
(Handle any emergency traffic before going on)

"All other stations, with our without traffic, please check in now."
(Acknowledge all stations heard)
"Any relays?"

Closing

"This concludes this session of the New Hampshire ARES Section Traffic and Coordination Net weekly training net. Thanks to all stations who participated. This is net control returning the frequency to regular use. <FCC call sign> clear."
